

**COMMERCIAL AND MINING ROOF BARS**

## THE LADD-A-LIFT SYSTEM

**Arrive on site**

- Aluminium construction
- Ergonomic lever system with hydraulic damper
- Suits all vehicles: Vans, utes, trucks & emergency
- Suits all ladder lengths
- Interchangeable from one vehicle to the next
- Fits on 2 or 3 bar, heavy duty or aerobar roofrack styles

**1/4 turn: Lifts ladder**

Improve efficiency with this new Ladd-a-lift rack system.

- Get quick access to ladders while protecting the health of the operator and condition of the ladder

**1/2 turn: Ladder moves down**

**Easy to lift off**

## SAVE TIME, WORK SMARTER

**SUITED TO FAST RESPONSE & REMOTE LOCATIONS**

**Simple but clever lever system**

### HIGH ROOF VAN SETUP

- Telescopic rear bar to lower end of ladder to desired height for safe unloading
- Easy access to swing ladder onto shoulder and carry away

### DOUBLE LADD-A-LIFT SETUP

**Operate with ease**

- Gas struts to control & cushion ladder movement
- Brings ladder down to an easily accessible height
- Height is adjustable
- Self clamping and optional strap

- Lockable with padlock
- Protects certified ladders from damage
- Safe loading in confined areas
